Mitsubishi Chemical Holdings Corporation (“the Company”) hereby announces that the Company has decided to issue stock acquisition rights (stock options as stock-linked compensation) to its executive officers and retired directors and executive officers (collectively, retired directors and executive officers are the “Retired Officers, etc.”) with the aim of sharing the benefits of an increase in the stock price but also the risk of a decline in the stock price with shareholders as well as providing an incentive to further contribute to the enhancement of the Company’s business performance and corporate value from the medium to long-term perspective. The issuance of the said stock acquisition rights to retired directors and current corporate executive officers of the Company has been decided by the Compensation Committee while the issuance of the said stock acquisition rights to others has been decided by the Representative Corporate Executive Officer, President & CEO of the Company.

The Company also announces that based on the delegation from the Board of Directors pursuant to the provisions of Article 416, paragraph (4) of the Companies Act, the Representative Corporate Executive Officer, President & CEO of the Company decided the details of offering for the said stock acquisition rights to be issued to executive Officers and Retired Officers, etc. in accordance with the provisions of Article 236, Article 238, paragraphs (1) and (2) and Article 240, paragraph (1) of the Companies Act as set out below.

Type of shares to be issued or transferred upon the exercise of stock acquisition rights shall be shares of common stock of the Company. The number of shares to be issued or transferred upon the exercise of each stock acquisition right (the “Number of Issued Shares”) shall be 50.

Notwithstanding the foregoing, if the Company conducts a stock split (including an allotment of the Company’s common stock without receipt of monetary consideration; the same shall apply to the description with regard to the stock split hereinafter) or a stock consolidation with respect to

its shares of common stock after the date of allotment (as specified in Item 12 below; the same shall apply hereinafter), the Number of Issued Shares shall be adjusted by using the following formula, and any fraction less than one (1) share resulting from the calculation of the adjusted Number of Issued Shares shall be rounded down to the nearest share.

$$\text{Number of Issued Shares after adjustment} = \text{Number of Issued Shares before adjustment} \times \text{Ratio of stock split or stock consolidation}$$

The Number of Issued Shares after adjustment shall be applied, in the case of a stock split, after the day following the record date of the stock split, or in the case of a stock consolidation, after the effective date of the said stock consolidation. However, when a stock split is made under the condition that a proposal to increase the capital or the reserve by reducing the surplus shall be approved at the Company's general meeting of shareholders, and if a date prior to the closing of the said general meeting of shareholders is set as the record date for the stock split, the Number of Issued Shares after adjustment shall become retroactively applicable on the day following the said record date, and the application may be implemented after the day following the closing date of the said general meeting of shareholders.

Other than the above, if it is deemed appropriate to adjust the Number of Issued Shares after the date of allotment, the Company shall adjust the Number of Issued Shares to the extent reasonable.

When adjusting the Number of Issued Shares, the Company shall, on or before the date immediately prior to the day on which the Number of Issued Shares will be adjusted, send notice or otherwise publicly announce the relevant details to each person holding the stock acquisition rights as provided in the register of the stock acquisition rights (the "Stock Acquisition Rights Holder").
