

Special

Carbon Milled Fiber

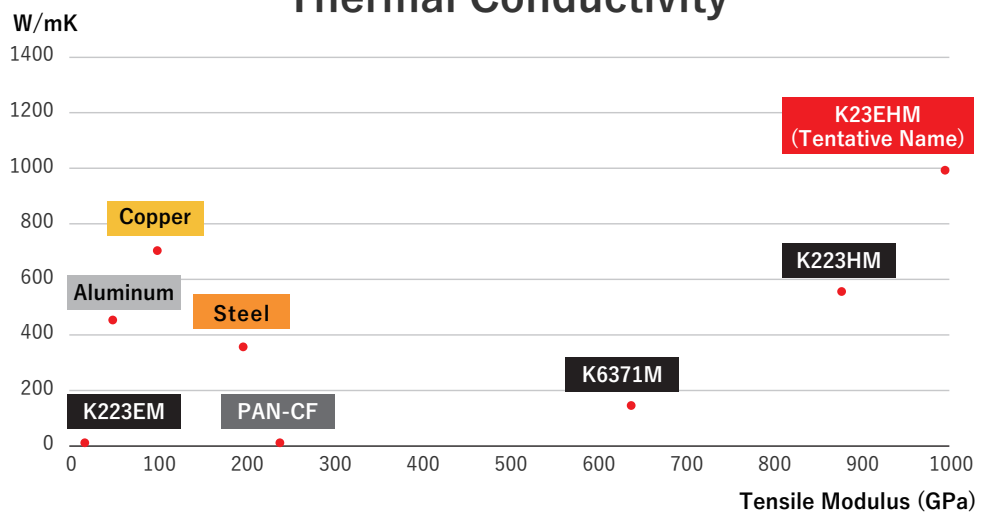

MCC's special Pitch based carbon milled fiber meets a wide range of needs from ESD around semiconductors to thermal management of electronic devices.

Developing Item

K23EHM (Ultrahigh Thermal Conductivity Grade)

Target Industries :
Electronic Technology
Target TC :
>1,000W/m·K

Thermal Conductivity

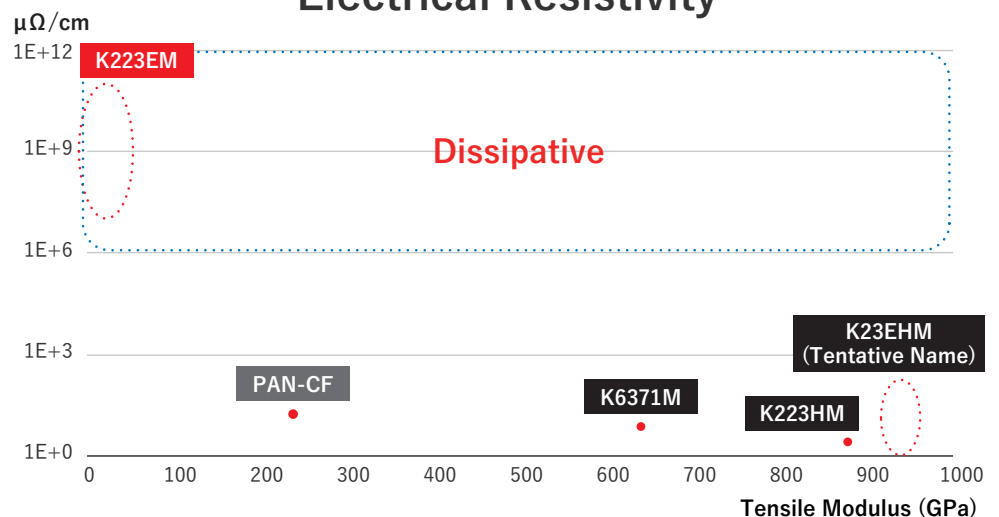

Promotion Item

K223EM (ESD Grade)

Target Industries :
Semi-Conductor Technology
Target Properties :
Surface Resistivity
between 10⁷- 10⁸ Ω/sq

Electrical Resistivity

The data and information provided in this document have been obtained from carefully controlled materials and procedures in Mitsubishi Chemical Corporation. Any values provided are considered representative but do not guarantee equivalency for your own testing of our products for your own purpose. Mitsubishi Chemical Corporation makes no warranty or representation, including but not limited to, implied warranties of our product and relevant information for a specific performance, use or purpose. Mitsubishi Chemical Corporation declines any liability with all data and all application made by you and any third party.
