Business Domains

By providing solutions to issues related to people, society and the Earth, Mitsubishi Chemical is accelerating the growth of its businesses. As challenges in such areas as the intensification of climate change, uneven distribution of water resources, growing and graying populations, and food and agriculture continue to emerge and evolve, the company's business domains related to each will work together to create new value and provide comprehensive solutions.

Social Issues Mitsubishi Chemical Is Addressing

- Efficient use of resources and energy
- Climate change (reducing CO₂)
- Securing clean water resources
- Food and agriculture problems
- Health maintenance and disease treatment
- Developing a smart society
