Suspension of Solid Epoxy Resin Manufacturing Facility

Mitsubishi Chemical Corporation

Mitsubishi Chemical Corporation (MCC; Head office: Chiyoda-ku, Tokyo; President: Masayuki Waga) hereby announces that it has suspended operations of the solid epoxy resin manufacturing facility at the Mie Plant due to partial damage to the facility. As a result of verification, it has been determined that it will be difficult to restore the facility by repairing it, and restoration is expected to take a long time to complete.

Therefore, MCC will not be able to accept orders for some affected products for the time being.

We deeply apologize for the inconvenience caused to all those concerned. We will continue to make every effort to restore the facility.

Affected products: Solid epoxy resin products
